PROFESSIONAL SUMMARY

Software Engineer with **2+ years** of experience (including a 6-month MERN internship) building production web applications for an enterprise assessment and learning platform serving **5,000+ users**. Strong in **Angular 19, TypeScript** and **RxJS**: component-driven architecture, reactive state management, REST API integration and JWT/RBAC authentication. Full-stack delivery across **Node.js/Express.js** and **Laravel** REST APIs with MySQL and MongoDB, third-party integrations (Zoom) and Playwright-verified releases in 2-week Agile Scrum sprints.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), PHP, C++, SQL, HTML5, CSS3, SCSS

Frontend: Angular 19, TypeScript, RxJS, Angular Signals, Standalone Components, Angular Material, Reactive Forms, Route Guards, HTTP Interceptors, React.js, React Hooks, Bootstrap, Responsive Web Design, Component-Based Architecture

Backend & APIs: Node.js, Express.js, Laravel (PHP), REST API Design, JWT Authentication, Role-Based Access Control (RBAC), Webhooks, Third-Party API Integration (Zoom)

Databases: MySQL, MongoDB, Mongoose, Eloquent ORM

Testing & Tools: Jasmine, Karma, Playwright, Unit Testing, Postman, Git, GitLab (Merge Requests), GitHub, npm, Angular CLI, Jira, Chrome DevTools

Practices: Agile Scrum, Code Review, Component Library Design, Performance Optimisation, State Management, Root-Cause Debugging, SDLC

Core CS: Data Structures, Algorithms, Object-Oriented Programming, DBMS

PROFESSIONAL EXPERIENCE

Software Developer (Angular & Full Stack)

Jan 2025 – Present

Ginger Webs Pvt. Ltd. (ThinkExam) – enterprise assessment & learning platform

Noida, India

- Develop and ship features across the LMS, e-commerce Store and Candidate portal of a production platform serving **5,000+ users**, including **4+** candidate-management and analytics dashboards in **Angular 19**, TypeScript, RxJS, Angular Material and ECharts.
- Built the LMS live-class module end to end: **Zoom** Server-to-Server OAuth integration, registration-based join links, webhook-driven attendance sync and recording retrieval, spanning the Angular admin/instructor apps and the **Laravel** REST API.
- Delivered a new Instructor role with a granular permission catalogue, database seeders/migrations and role-aware navigation across **4 codebases** (LMS API, LMS admin, Suite, Candidate app).
- Engineered layered authentication – **JWT**, refresh tokens, HTTP-only cookies, HTTP interceptors and route guards – enforcing **role-based access control (RBAC)** across the platform.
- Cut initial load time **20%** through bundle profiling, lazy-loaded feature routes, standalone components and OnPush change detection; built a documented library of **25+ reusable UI components** with a shared validation layer, reducing new-module effort **15%**.
- Integrated **20+ REST API endpoints** with RxJS state management and centralised error handling, backed by **40+ Jasmine/Karma unit tests**; closed **50+** QA-reported Jira defects in one quarter with **Playwright** end-to-end verification before merge.

MERN Stack Developer Intern

Jul 2024 – Dec 2024

World Web Logic Pvt. Ltd.

Noida, India

- Built responsive, reusable UI components and pages in **React.js** (Hooks) for **2 feature modules**, integrating backend REST APIs.
- Delivered **10+ CRUD REST endpoints** in **Node.js** and **Express.js** with Mongoose schemas for product and order modules, validated with Postman.
- Collaborated in a **5-member** Agile Scrum team, reviewing peer pull requests and debugging defects ahead of release.

PROJECTS

E-Commerce Web Application (MERN Stack) | React.js, Node.js, Express.js, MongoDB, JWT

- Created **3 core storefront flows** (product, cart, order) in **React.js** with an admin dashboard connected to Express.js REST APIs.
- Modelled product and order data across **2 Mongoose schemas** with full CRUD operations and JWT-protected admin-only routes.

Portfolio & Front-End Mini-Apps | HTML5, CSS3, JavaScript, Chart.js, GitHub Pages

Live: harsh3851.github.io/Portfolio

- Designed and deployed a responsive portfolio plus **3 single-page apps** – FinTrack (budget tracker with Chart.js analytics), Task Master (task dashboard) and Weather Wiz (weather lookup) – all live on GitHub Pages with source on GitHub.

EDUCATION

B.E. Computer Science & Engineering

2021 – 2025

Chandigarh University

CGPA: 8.54/10

Ranked **3rd** of **200+ students** in Computer Science; final year completed alongside full-time employment.

CERTIFICATIONS

Master C++ Programming – GeeksforGeeks
